TITLE

A computer log-on technique using a one-way function **El-Kateeb, A, Al-Khayatt, S and Hermiz, G** 178
Automatic identity verification **Koehring, J** 103
Communications made simple **Fuller, A** 14
Computer output and the law **Tapper, C** 131
Computer security — coping with change **Lobel, J** 140
Computers and society in Sweden **Jonasson, S** 19
Conscience in computing: a perspective on computer crime **Bloombecker, J** 154
Consequences of information technology **Steinmüller, W** 163
Coordinating health informatics — the role of IMIA **Owen, K** 44
Electronic participation by citizens in US local government **Dutton, W et al.** 78
Guidelines for a coordinated informatics policy in Sweden **Jonasson, S** 67
Information integrity **Becker, H** 3
Information science analysis of information systems **Steinmüller, W** 30
Information technology in Italy **Bonaretti, N, Nenna, A and Osimo, B** 49
MASES — a PROLOG expert system **Duffin, P and Lello, S** 210
Microfilm as a source of evidence **Rogers, H F** 134
Overcoming obstacles to EFTS **Humble, J** 111
Personnel administration: privacy issues **McFarlane, S and Davis, R** 223
Planning for an integrated information security programme **Koenig, R** 144
Political and legal aspects of industrialized intellectual work **Steinmüller, W** 197
Procuring computer systems for an open-network environment **Charles, B** 159
Protection of computer software **Greguras, F** 206
Public key cyphers and signatures **Davis, D** 25
The information technology marketplace **Sheard, K** 195
The real cost of software piracy **Cooper, C** 98
Trends in the maintenance of IT systems **Dibble, R E** 39
Tying hardware to software: the Data General decision **Reback, G and Derwin, D** 220

SUBJECT

Book reviews

Careers in an information society — education for the future **Wheelock, J V (Ed)** 186
Computer power and human reason: from judgement to calculation by **Weizenbaum, J** 186
From Guttenberg to Telidon: a White Paper on copyright by **Evola, J and Fox, F** 249
Grammatical man — information, entropy, language and life by **Campbell, J** 53
Kahn on codes: secrets of the new cryptology by **Kahn, D** 186
The right to communicate: a new human right **Fisher, D and Harms, L S (Eds)** 249
The rise of the computer state by **Burnham, D** 186
The wealth of information by **Stonier, T** 186

Business

The information technology market-place **Sheard, K** 195

Calendar 64, 128, 192, 256

Case study

Electronic participation by citizens in US local government **Dutton, W et al.** 78

Communications

Communications made simple **Fuller, A** 14
Procuring computer systems for an open-network environment **Charles, B** 159

Education

Information technology in Italy **Bonaretti, N, Nenna, A and Osimo, B** 49

EFT

Overcoming obstacles to EFTS **Humble, J** 111

Expert systems

MASES — a PROLOG expert system **Duffin, P and Lello, S** 210

Information systems

Airport information system 63
Business telecommunications 127
Data/telegraph interface 63
DES software 62
Electronic mail exchange 62
Hand-held electronic mail 63
Intelligent storage control 124
Interactive database for VAX 61
Maritime satellite service 126
Multifont document reader 125
Multiservice 'smart' cards 61
Multiuser application software 126
Optical storage devices 62
Parallel processing 127
Statistical forecasting package 127
Transatlantic fibre optic cable 124
Transatlantic satellite service 60
USA/Canada videotext standard 125
Viewdata-based sales system 60
Viewdata-based shipping database 60

Legislation

CEC suspends action against IBM 251
Computer output and the law **Tapper, C** 131
European Parliament resolution on data processing 252
Microfilm as a source of evidence **Rogers, H F** 134
Personnel administration: privacy issues **McFarlane, S and Davis, R** 223
Tying hardware to software: the Data General decision **Reback, G and Derwin, D** 220

Maintenance

Trends in the maintenance of IT systems **Dibble, R E** 39

Market forecasts

Computing and data processing equipment 56
Computer-aided engineering work-stations for IC design: products, market trends, user implications 123
Courseware and software for micros in education 191
Data communications market: impact of deregulation 190
Electronic filing markets in Europe 255
Financial information services — online teledelivery 122
Future spending on Ada 191
Home computer software market in the US 56
Microcomputer business software distribution strategies 121
Microcomputer educational software 120
Microcomputer operating system strategies 119
Online database systems in the US 57
Packaged software for small computers 190
Piracy and the business micro market 254
Speech recognition and synthesis: technologies, applications and markets 118
Software package markets — Japanese developments 122
Supermicros 254
The industrial vision systems market in the US 54
The optical memory media in the US 120
Videotex vs. audiotex — the competition for home information and transaction services 54
Voice recognition 55

Policy

Guidelines for a coordinated informatics policy in Sweden **Jonasson, S** 67

Regulation

Call for European fifth generation research centre 58
European information industry survey 59
Man/machine interface design guidelines 59
Scientists' view of UK Data Protection Bill 58
Worldwide news service 59

Security

A computer log-on technique using a one-way function **El-Kateeb, A, Al-Khayatt, S and Hermiz, G** 178
Automatic identity verification **Koehring, J** 103
Computer security — coping with change **Lobel, J** 140
Conscience in computing: a perspective on computer crime **Bloombecker, J** 154
Information integrity **Becker, H** 3
Planning for an integrated information security programme **Koenig, R** 144
Protection of computer software **Greguras, F** 206
Public key cyphers and signatures **Davis, D** 25
The real cost of software piracy **Cooper, C** 98

Social issues

Computers and society in Sweden **Jonasson, S** 19
Consequences of information technology **Steinmüller, W** 163
Information science analysis of information systems **Steinmüller, W** 30
Political and legal aspects of industrialized intellectual work **Steinmüller, W** 197

Systems design

Coordinating health informatics — the role of IMIA **Owen, K** 44
